

# Functional Summary Tool

Kirsty Forrest

Patient Flow Co-ordinator  
Dumfries & Galloway Royal Infirmary

# Community Hospitals

# REASONS FOR REFERRAL

- Ward Team

For REHAB

*For rehab*

Its complicated

This is an acute ward

Its xx days post surgery

FOR REHAB

- Patient Flow

What sort of rehab ?

What intensity of rehab ?

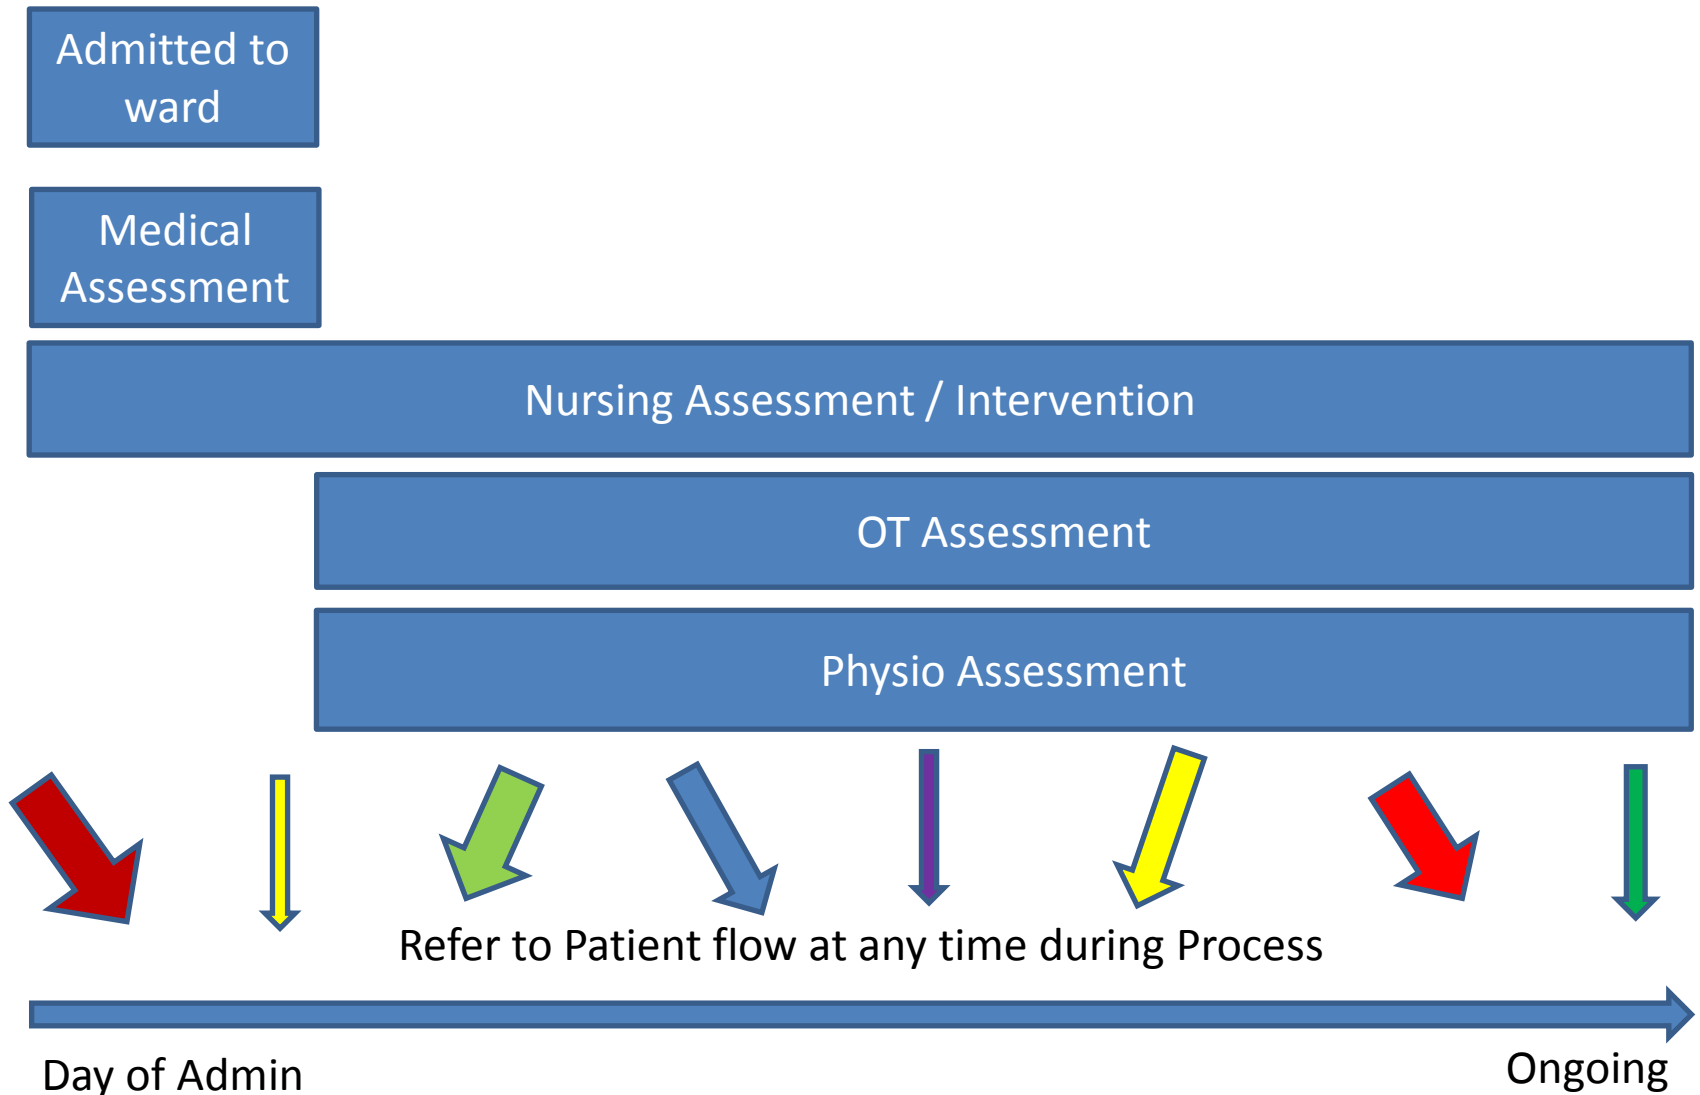

What is the anticipated outcome ?

What's the patients' goal?

Is the patient ready to move ?

What is preventing discharge home?

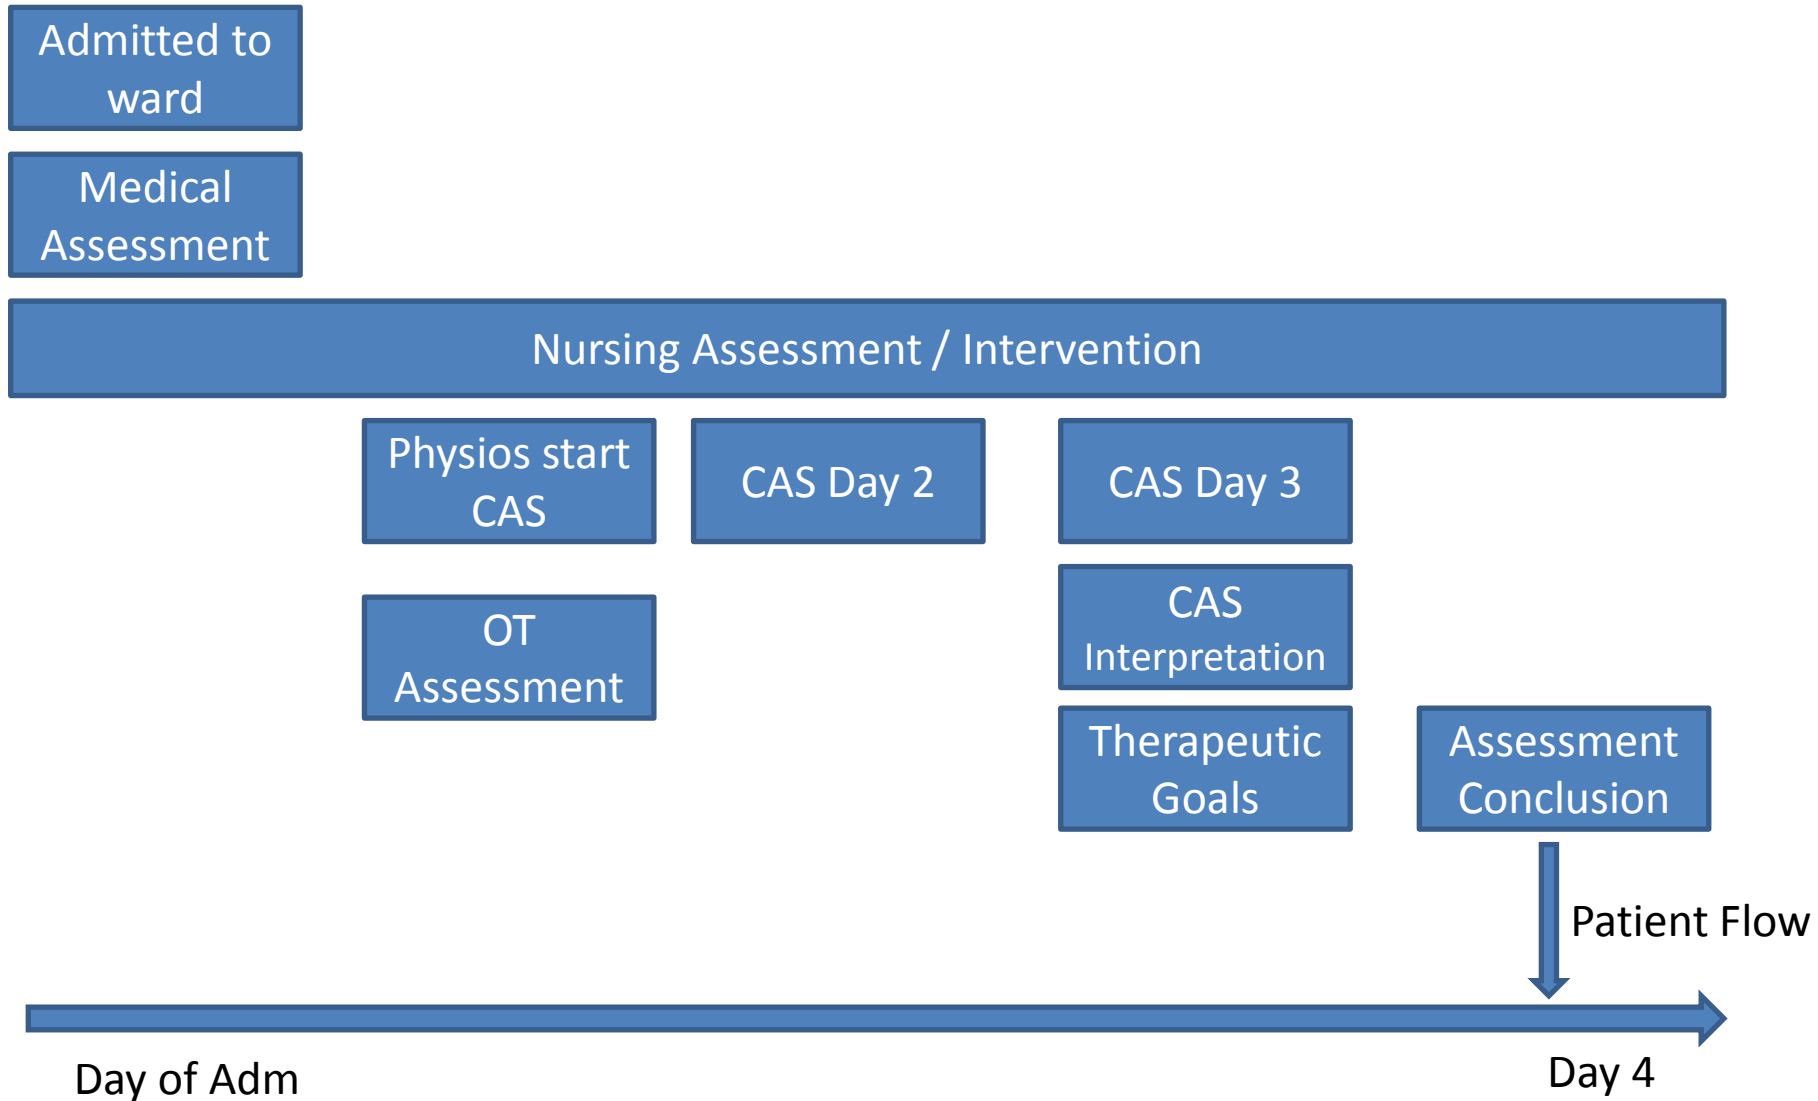

# Representation of Process

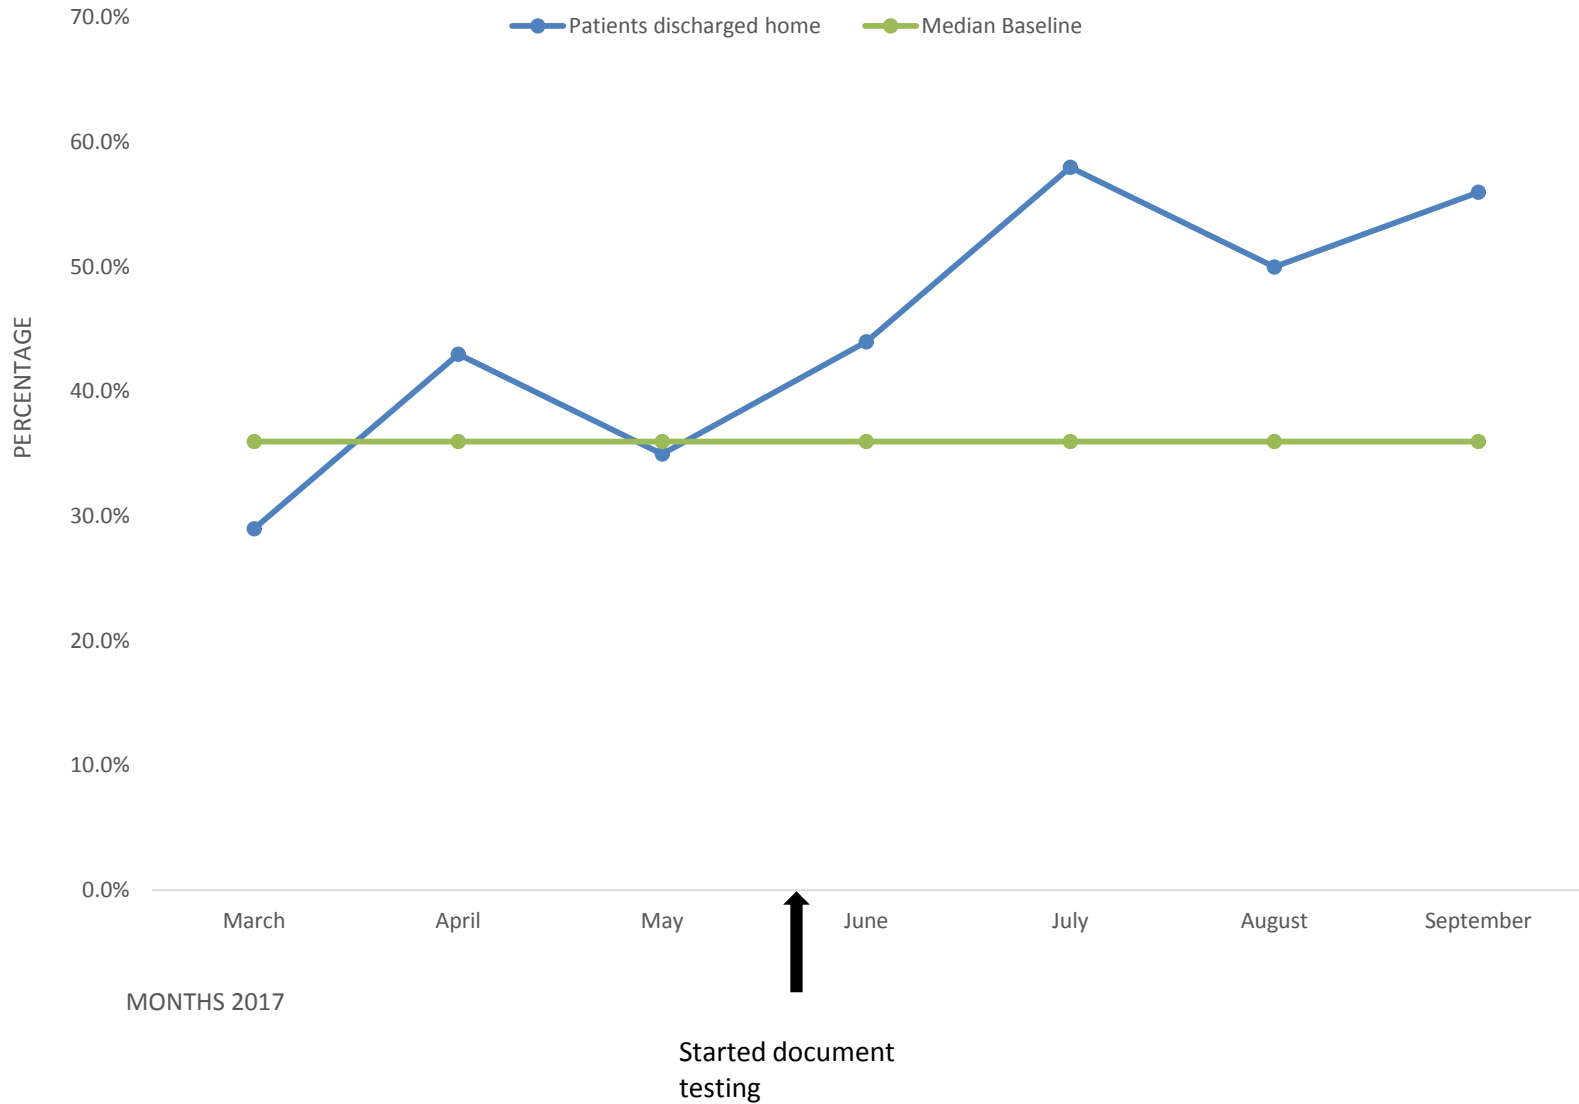

# Functional Assessment Summary Tool

- Medical Assessment – Clinical Frailty Scale
- Cumulated Ambulation Score
- CAS interpretation
- Patient Centred Goal – with time scale
- Record of patient involvement
- Comments

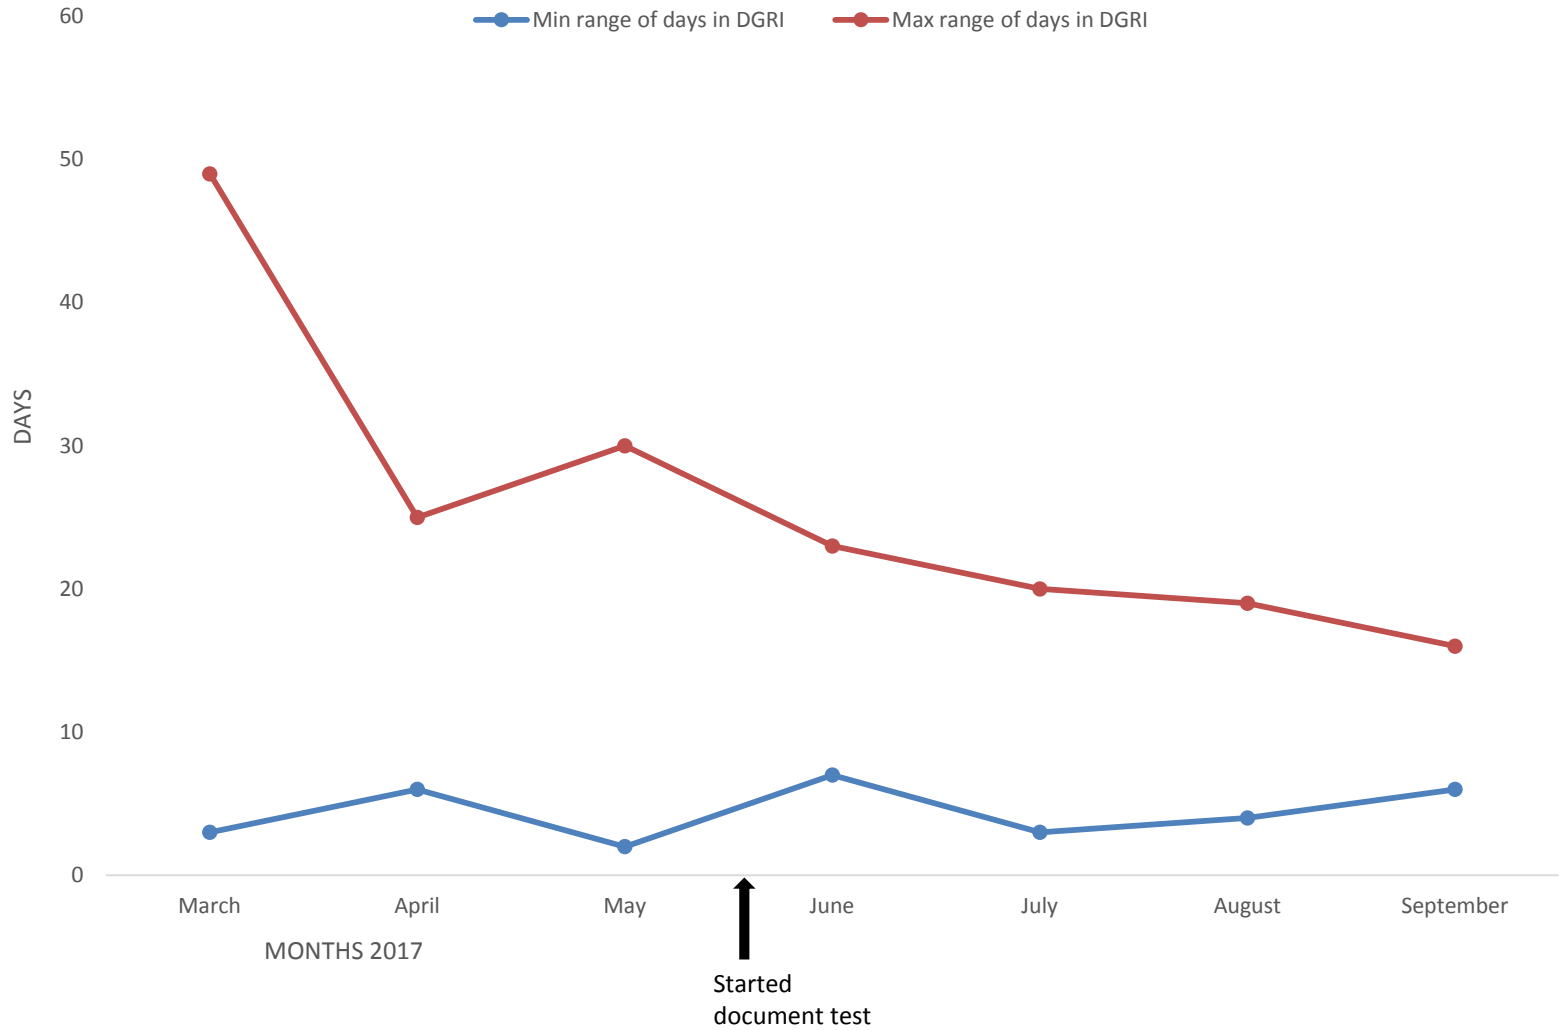

# Representation of New Process

# Patients Discharged Home

# Length of Stay in DGRI

# STANDARDISED TOOLS

- **Clinical Frailty Scale**
